

Why Encapsulation?

Many active compounds metabolise rapidly and are swiftly eliminated from the body. Encapsulation facilitates the active's gradual and constant release, allowing it to maintain a consistent level in the body. This, in turn, prevents the need for frequent dosing, ensuring sustained efficacy.

PHARMACEUTICAL
Pellets

Umang Global Group is the manufacturer and supplier of a diverse range of Ingredients, Edible Decorative items and encapsulated solutions for Various segments, with 40+ years of experience and expertise. with GMP-approved classified facilities, an excellent qualified R&D team, and well-equipped in-house QC capabilities.

We cater to various segments like Functional foods, Bakery, Nutraceuticals, Pharmaceuticals, Personal care, and Home care.

Gastrointestinal

In our Gastrointestinal segment, we specialize in providing enteric-coated pellets that safeguard the active ingredients from gastric acid, ensuring optimal delivery to the intestine for effective treatment.

Esomeprazole EC MUPS (8.5%,22.5%)

Pharmacological Class: Proton Pump Inhibitor (PPI)
Enteric Coated Esomeprazole MUPS.

Omeprazole EC MUPS (8.5%,17.5%,22.5%)

Pharmacological Class: Proton Pump Inhibitor (PPI)
Enteric Coated Omeprazole MUPS.

Dexlansaprazole DR Pellets (20%,22.5%)

Pharmacological Class: Proton Pump Inhibitor (PPI)
Delayed Release Dexlansaprazole Pellets.

Simethicone EC Pellets (50%)

Pharmacological Class: Anti-flatulence Agent
Enteric Coated Simethicone Pellets.

Vitamin & Minerals

In our Vitamins & Minerals segment, we ensure the protection of essential nutrients, safeguarding them from degradation to maintain their potency and efficacy.

Dried Ferrous Sulphate (150 mg) SR + Folic Acid (0.5 mg) Blended Pellets

Pharmacological Class: Iron Supplement + Folic Acid Supplement
Sustained Release Dried Ferrous Sulphate and Folic Acid Blended Pellets.

Ascorbic Acid SR Pellets (60%)

Pharmacological Class: Vitamin C Supplement
Sustained Release Ascorbic Acid Pellets.

Ferrous Glycine Sulphate EC Pellets (60%)

Pharmacological Class: Iron Supplement
Enteric Coated Ferrous Glycine Sulphate Pellets.

Potassium Chloride (90%) + Zinc (1%) Blended Pellets

Pharmacological Class: Mineral Supplement
Potassium Chloride + Zinc Blended Pellets.

Anti-Inflammatory

In our Anti-inflammatory segment, we offer sustained-release pellets alongside immediate-release options, providing versatile solutions for inflammation management.

Aspirin IR/SR Pellets (65%,95.5%)

Pharmacological Class: Nonsteroidal Anti-Inflammatory Drug (NSAID)
Immediate Release / Sustained Release Aspirin Pellets.

Diclofenac Sodium IR/SR Pellets (33%,40%)

Pharmacological Class: Nonsteroidal Anti-Inflammatory Drug (NSAID)
Immediate Release / Sustained Release Diclofenac Sodium Pellets.

Ibuprofen IR/SR Pellets (85.56%)

Pharmacological Class: Nonsteroidal Anti-Inflammatory Drug (NSAID)
Immediate Release / Sustained Release Ibuprofen Pellets.

Tolperisone HCL IR/SR Pellets (60%)

Pharmacological Class: Muscle Relaxant
Immediate Release / Sustained Release Tolperisone HCL Pellets.

Anti-Infective

In our Anti-infective segment, We provide taste-masked granules for bitter actives, ensuring improved consumer acceptance.

Clarithromycin Taste Masking IR Granules (27.5%)

Pharmacological Class: Antibiotic (Macrolide)
Immediate Release Taste Masked Clarithromycin Granules.

Itraconazole IR Pellets (22%)

Pharmacological Class: Antifungal
Immediate Release Itraconazole Pellets.

Fluconazole IR Pellets (30%)

Pharmacological Class: Antifungal
Immediate Release Fluconazole Pellets.

Azithromycin Taste Masking Granules (15%)

Pharmacological Class: Antibiotic (Macrolide)
Immediate Release Taste Masked Azithromycin Granules.

Digestive Enzymes

In Our Digestive Enzymes Segment, We focus on retaining enzyme activity to promote efficient digestion. We ensure protection from environmental degradation and guarantee effective delivery.

Pancreatin EC Pellets (4000 USP, 10000 USP, 25000 USP)

Pharmacological Class: Digestive Enzymes
Enteric Coated Pancreatin Pellets.

Pancreatin + Simethicone Pellets

Pharmacological Class: Digestive Enzymes + Anti-flatulence Agent
Pancreatin + Simethicone Pellets.

Cardiovascular

In our Cardiovascular segment, we specialize in sustained-release pellets, ensuring gradual and continuous delivery of medications for optimal heart health.

Clopidogrel IR Pellets (60%)

Pharmacological Class: Antiplatelet Agent
Immediate Release Clopidogrel Pellets.

Nitroglycerin SR Pellets (1.25%)

Pharmacological Class: Vasodilator
Nitroglycerin Sustained Release Pellets.

Urological

In our Urological segment, we provide extended-release pellets, ensuring gradual release for urological conditions. This extended-release feature reduces dosing frequency, enhancing patient convenience and compliance.

Tamsulosin HCL ER Pellets (0.2%)

Pharmacological Class: Alpha-1 Blocker
Extended Release Tamsulosin HCL Pellets

Tolterodine Tartrate ER Pellets (0.2%)

Pharmacological Class: Antimuscarinic Agent
Extended Release Tolterodine Tartrate Pellets.

Anti-Obesity

In our Anti-obesity segment, we provide immediate-release pellets for easy handling by formulators, ensuring efficient incorporation into weight management formulations.

Orlistat IR Pellets (50%)

Pharmacological Class: Lipase Inhibitor
Immediate Release Orlistat Pellets.

Fenofibrate IR Pellets (60%)

Pharmacological Class: Lipid-lowering Agent
Immediate Release Fenofibrate Pellets.
